Jama Connect® Pre-imported Library for eCFR Title 14, Chapter I, Subchapter C

Streamline regulatory compliance with Live Traceability™ in Jama Connect®'s Airborne Systems Solution and our new pre-imported eCFR library.

The Jama Connect® Parse and Import Library:

The Code of Federal Regulations (CFR) Title 14, Chapter I, Subchapter C, pertains to aviation regulations in the United States. Title 14 of the CFR, also known as the Federal Aviation Regulations (FAR), is a comprehensive set of rules governing civil aviation in the country. Title 14, Chapter I, Subchapter C is specifically concerned with aircraft, and is further divided into multiple parts. Each part covers specific aspects of aircraft regulation, including airworthiness standards, identification and registration, maintenance, and operational requirements. The regulations in this subchapter are designed to ensure air transportation safety by establishing standards for the design, production, and operation of aircraft.

eCFR Title 14, Chapter I, Subchapter C Integrator for Jama Connect® is a comprehensive solution designed to automate the integration of aviation regulations into your product development process.

By parsing and presenting regulations in a visually consumable format, it ensures seamless compliance management, while the Live Traceability™ feature enables real-time tracking throughout your project lifecycle. The Airborne Systems 2.0 Dataset inclusion further enhances your aviation compliance capabilities.

Unlock the Power of Efficient Compliance Management:

The eCFR Title 14, Chapter I, Subchapter C Integrator for Jama Connect accelerates your compliance management by automating the import and parsing process of CFR Title 14, Chapter I, Subchapter C regulations. By centralizing regulatory information in a single platform, the tool fosters collaboration, reduces risks, and increases efficiency across your organization.

Key Features

- Pre-imported Library: utilize CFR Title 14, Chapter I, Subchapter C into Jama Connect, saving valuable time and resources.

- Visually Consumable Format: Enhance understanding and decision-making with clear, easy-to-comprehend presentation of regulations.

- Live Traceability™: Track compliance with aviation regulations in real-time throughout your project lifecycle.

- Airborne Systems 2.0 Dataset: Access a comprehensive dataset that includes pre-imported Library CFR Title 14, Chapter I, Subchapter C for an all-encompassing compliance management experience.

- Customized Consulting and Training: Consulting and training customized to your team's compliance processes.

Key Benefits

With the Jama Connect Parse and Import Tool, you can:

- Streamline compliance management with a pre-imported library of aviation regulations.

- Foster collaboration and improve decision-making with a visually consumable presentation of regulatory information.

- Track compliance in real-time with Live Traceability™, reducing risks and ensuring visibility at every stage of product development.

- Increase efficiency and save time and resources by automating the import and parsing process, allowing your team to focus on innovation.

- Leverage the comprehensive Airborne Systems 2.0 Dataset for enhanced aviation compliance management capabilities.

- Gain a competitive advantage and stay ahead of regulatory changes with real-time insights through Live Traceability.

A Unified Platform for Requirements Management:

Requirements Management:
Manage complex aviation regulatory requirements while eliminating the risks and inefficiencies associated with static documents and legacy systems.
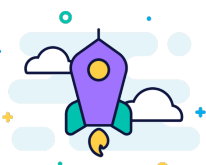

Live Traceability™:
Monitor compliance with aviation regulations in real-time, helping teams identify and mitigate issues earlier in the development process.

Visually Consumable Format:
Present regulations in a clear, easy-to-understand format, improving comprehension and decision-making.

Airborne Systems 2.0 Dataset:
Enhance your compliance management capabilities with access to the comprehensive dataset, including CFR Title 14, Chapter I, Subchapter C.

Getting Started Made Easy

The eCFR Title 14, Chapter I, Subchapter C Integrator for Jama Connect provides a user-friendly experience with a step-by-step guide for importing CFR Title 14, Chapter I, Subchapter C regulations. This intuitive process ensures seamless integration into your Jama Connect environment, allowing you to leverage Live Traceability™ and other powerful features for efficient regulatory compliance.

Steps to take:

To begin leveraging the benefits of the eCFR Title 14, Chapter I, Subchapter C Integrator for Jama Connect and the Airborne Systems 2.0 Dataset, follow these steps:

1. **Request a demo:** Visit us here and request a personalized demo to see the Jama Connect Parse and Import Tool in action.

2. **Tailored onboarding:** Our team of experts will guide you through tailoring the library configuration, ensuring smooth integration with your existing tools and processes.

3. **Training and support:** We provide comprehensive training materials and ongoing support to help your team maximize the Jama Connect Parse and eCFR Library.

4. **Trace your compliance:** Start tracing your system's compliance to CFR Title 14, Chapter I, Subchapter C data into Jama Connect, and experience the benefits of Live Traceability, real-time collaboration, and automated compliance reporting.

For more information, visit us here. For Jama Connect customers, please reach out to your Customer Success Manager. Our team of experts is ready to help you more easily achieve regulatory compliance.

Customer Insights:

Read firsthand, how our clients have transformed their aviation compliance management with the Jama Connect Parse and Import Tool.

"Jama Connect's real-time collaboration features have been a game-changer for communication across different teams in our organization. By keeping everyone on the same page with CFR Title 14, Chapter I, Subchapter C compliance, we've avoided misunderstandings and made more informed decisions throughout the product development lifecycle."

- Systems Egineer

"I must admit, Jama Connect's Parse and Import Tool has made a world of difference for our aviation product development team. We're saving so much time managing compliance with CFR Title 14, Chapter I, Subchapter C now. And the Live Traceability feature? Amazing for keeping up with regulatory changes and staying ahead in the market."

- Systems Egineering Manager

"Integrating the eCFR Title 14, Chapter I, Subchapter C Integrator for Jama Connect with our existing tools and processes has contributed to building our organization's compliance maturity. By having a unified platform for managing compliance, we've been able to streamline our processes, reduce risks, and ultimately deliver better products to our customers."

- Compliance Officer

jama software®

Jama Software® is focused on maximizing innovation success in multidisciplinary engineering organizations. Numerous firsts for humanity in fields such as fuel cells, electrification, space, software-defined vehicles, surgical robotics, and more all rely on Jama Connect® requirements management software to minimize the risk of defects, rework, cost overruns, and recalls. Using Jama Connect, engineering organizations can now intelligently manage the development process by leveraging Live Traceability™ across best-of-breed tools to measurably improve outcomes. Our rapidly growing customer base spans the automotive, medical device, life sciences, semiconductor, aerospace & defense, industrial manufacturing, consumer electronics, financial services, and insurance industries. To learn more, please visit us at jamasoftware.com.
